

# Trichomes E-Commerce Web App Development Agreement

## Parties

This Agreement is entered into on August 31, 2025, between:

- **Trichomes Cosmeceuticals and Skincare**, hereinafter referred to as "Client."
- **Ajibola Bamidele**, hereinafter referred to as "Developer."

## Project Scope

The Developer agrees to design, develop, test, and deploy an e-commerce web application for the Client within a 2-month period, commencing on September 1, 2025 and concluding on October 31, 2025. The N900,000 payment exclusively covers the following services and features:

### 1. **Deployment:**

- Hosting setup on a reliable platform (e.g., Whogohost or AWS Lightsail) with domain configuration, SSL certificate (via Let's Encrypt), and basic CDN (Cloudflare free tier) for improved site speed.
- Mobile-optimized, responsive design for seamless access on all devices.
- Staging environment for testing updates before going live.

### 2. **Payment Integration:**

- Integration of a Nigerian-friendly payment gateway (e.g., Paystack or Flutterwave) supporting cards, bank transfers, and USSD.
- Guest checkout and multi-currency display (NGN/USD with automatic conversion).

### 3. **Inventory Management:**

- Admin dashboard to add, edit, or delete products (name, description, price, images, stock levels, categories).
- Bulk upload via CSV and low-stock alerts (via email or dashboard).

### 4. **Order Tracking:**

- Customer-facing order tracking page (via account or guest link) with statuses (e.g., Pending, Shipped).
- Automated email/SMS notifications for order updates.
- Order management dashboard for the Client to update statuses and view details.
- Returns/refunds request form for customers to initiate returns on the site.

### 5. **User Management:**

- Customer account creation, login, password recovery, and profile management (saved addresses, order history, wishlist).
- Role-based access (admin/staff) and basic customer segmentation (new/returning).

### 6. **Product Updates:**

- Real-time product updates via the admin dashboard, including product variants (e.g., size, color).
- Featured products section on the homepage, editable by the Client.

### 7. **WhatsApp-Integrated Product Inquiry Form:**

- "Contact via WhatsApp" button on product pages with pre-filled messages.
- Floating WhatsApp widget on all pages for quick support.
- Fallback inquiry form (name, phone, message) routed to Client's email/dashboard.

#### 8. **Search and Filtering:**

- Search bar for product lookup by name/keyword.
- Filters by category, price range, or new arrivals.

#### 9. **Promotional Banners:**

- Homepage banner section for promotions or announcements, editable via the admin dashboard.

#### 10. **Basic Analytics Dashboard:**

- Client dashboard showing total sales, order count, and top-selling products (via Google Analytics or custom queries).

### **Exclusions**

- The N900,000 payment does **not** include UI/UX design costs. The Client is responsible for providing or separately funding UI/UX design (e.g., wireframes, custom templates).

### **Deliverables**

- A fully functional e-commerce web application with the listed features.
- Admin dashboard for managing inventory, orders, users, and promotions.
- Documentation for platform management and a 2–3 hour training session for the Client.
- 30-day post-deployment support for bug fixes and minor adjustments (excluding new features or maintenance).

### **Timeline**

- **Week 1:** Requirements gathering, setup (hosting, domain, database), and confirmation of Client-provided UI/UX (if any).
- **Week 2–3:** Develop core features (payment, inventory, user management, product updates).
- **Week 4–5:** Implement WhatsApp integration, search/filtering, banners, analytics, and returns form.
- **Week 6:** Finalize multi-currency, order management, and interface.
- **Week 7:** Testing (functionality, security, mobile responsiveness, payment flows).
- **Week 8:** Deployment, training, and handover.

### **Payment Terms**

- Total project cost: N900,000, covering only the services listed above.
- Payment schedule:
  - 40% (N360,000) upon signing this Agreement.
  - 30% (N270,000) upon completion of core feature development (Week 5).
  - 30% (N270,000) upon deployment and training (Week 8).
- Payments to be made via bank transfer to [Developer's Bank Details, e.g., Account Name, Number, Bank].
- The N900,000 does **not** cover UI/UX design, additional features, retainers, or ongoing maintenance, which require separate agreements.

## Responsibilities

- **Client:**
  - Provide product content (images, descriptions, prices) by Week 1.
  - Set up WhatsApp Business and payment gateway accounts (e.g., Paystack) and share API keys.
  - Provide UI/UX design or approve use of basic templates.
  - Offer timely feedback (within 2–3 days per milestone).
  - Cover ongoing costs post-launch (hosting, domain, SMS, transaction fees).
- **Developer:**
  - Deliver a secure, functional, and responsive web app as specified.
  - Use cost-effective tools (e.g., Laravel, MySQL, Cloudflare) to stay within budget.
  - Provide training and 30-day support post-deployment.

## Terms and Conditions

- **Ownership:** The Client owns the web application upon full payment, excluding third-party tools/plugins (e.g., payment gateways, open-source frameworks).
- **Confidentiality:** Both parties agree to keep project details confidential.
- **Warranty:** 30-day post-deployment warranty for bug fixes (excludes new features or maintenance).
- **Termination:** Either party may terminate with 14 days' written notice; the Client is liable for work completed.
- **Additional Features and Maintenance:** Any features beyond the listed scope, retainers, or ongoing maintenance (post-30 days) will be negotiated separately under a new contract.
-
